Vocational Technical Resources for Community College Libraries

Mary Ann Laun, editor

The most comprehensive and current compilation of annotated bibliographies covering both print and nonprint resources needed to support vocational and technical curricula for community college or vocational/technical institutions. A total of 58 career fields organized into ten discipline areas:

- Allied Health
- Building and Construction Trades
- Business
- Communications/Production Technologies
- Criminal Justice and Law
- Education
- Engineering and Technology
- Graphic and Apparel Arts
- Sciences
- Social Services

Each career field begins with an Introduction describing the nature of the work involved, required skills, educational background, and trends in the field. Pertinent associations, accrediting/certifying bodies, and selected trade and professional journals for each area of study are listed. Name, title, and journal indexes are included for easy cross-reference.

Essential to undergraduates, vocational and technical students, librarians, faculty, and the general public looking for information on vocational resources.
